

# The boutique firm dataset

firmscope.co/data · hello@firmscope.co · 2026-08-27

## 20,146 hand-verified boutique firms · 11 cities · 6 industries

Every record verified by a person against the firm's own website or LinkedIn. Counts are live database numbers as of 2026-08-27 - nothing rounded up, padded or invented.

| VERTICAL           | FIRMS  | 10,500+                                                                      |
|--------------------|--------|------------------------------------------------------------------------------|
| Investment Banking | 1,648  | named contacts or inboxes, labelled by source                                |
| Consulting         | 7,890  | 13,463                                                                       |
| Venture Capital    | 4,206  | firms with 2-10 people - the segment crawls miss most                        |
| Private Equity     | 633    | 11                                                                           |
| Asset Management   | 4,189  | cities: London, New York, HK, SG, Dubai, Toronto, Boston, SF + 3 UK regional |
| Corporate Law      | 1,580  |                                                                              |
| Total              | 20,146 |                                                                              |

### What each record carries

Firm name and canonical slug · website and firm LinkedIn URL · headquarters city and country  
Industry (one of six verticals) · focus tag (deal type, stage, strategy or practice area)  
Headcount band · named contact, role and channel, labelled by source · verification timestamps

### Delivery and terms

Bulk CSV or Parquet, monthly refreshes, scoped by city and vertical or the full dataset.  
Annual licences priced by scope and use. REST API with search, enrichment and a changes feed in development - licensees get first access. Custom city or segment builds typically inside two weeks.  
Evaluation: a 50-row public sample ships with this pack; full-field samples available under NDA.
